PROJECTS

Brick Breakers -*Dart, Flutter & Flame*

Built a classic Brick Breaker game utilizing Flutter's robust framework and Dart's object-oriented capabilities, along with the powerful Flame gaming engine. Implemented core game mechanics like paddle control, realistic ball physics, a dynamic scoring system, and engaging level progression. Leveraged Flame's features for stunning visuals, engaging animations, precise collision detection.

AppBook ELibrary -*Flutter & Dart & Google Books*

Built mobile app "Book eLibrary" using Flutter & Google Books API, enabling users to explore ebooks, audiobooks, create personalized lists, and access content offline. Contributed to personal skill development while promoting book discovery and reading.

CARTO ECommerce -*Flutter & Dart & Firebase*

Another demo project for practicing ASP.net MVC, A Multi-rolled Ecommerce Web Application of an online store where user can view products unlogged and can create shopping carts favorites and wish lists as well can place and cancel orders and view order detail when logged in while the admin can view users, orders and can perform basic operation.

EXPERIENCE

Columbia Information Technology,Metro Star Gate , Shahrah-e-faisal-*Teaching Assistant*

September 2023 - 2024

Working at Aptech Metro Star Gate as a teaching assistant was an invaluable experience that allowed me to contribute to aspiring IT professionals' academic and professional development. I supported students through various courses and tutorials, fostered their learning through individual guidance and innovative teaching materials, and deepened my own understanding of educational methodologies. This experience solidified my passion for nurturing talent in the dynamic landscape of IT.

Weblinx Solutions, Model Colony, Airport-*Core PHP Developer Intern*

April 2022 - September 2022

I was employed as a software developer at Weblinx Solutions, a dynamic software house. This role allows me to leverage my skills in designing, developing, and maintaining robust software solutions across various platforms and technologies. I work collaboratively with a talented team to deliver innovative solutions that address our clients' complex challenges, constantly expanding my knowledge base and refining my technical expertise in the ever-evolving software development landscape.
